Step12

Finish installing net, Working around trampoline and enclosure, work net down on poles, after net is stretched over poles and bottom of net is resting on pads, attach the hook to D-Ring at the button of the pad.

Step 12

Safety Enclosure assembly complete.

 **IMPORTANT WARNING**

**You should go back now and stretch all attachment hooks tight and double check to see whether you have fastened the jigs use the screw sets or not , so the safety net stands stiff. Otherwise, the safety net will not function properly . Then finish assembling.**

**WARNING:**

1. Adequate overhead clearance is essential. A minimum of 24 ft, and a clearance of 2m around the perimeter of the trampoline, from ground level is recommended. Provide clearance for wires, tree limbs and other possible hazards.
2. Lateral clearance is essential. Place the trampoline and trampoline enclosure away from walls, structures, fences, and other play areas. Maintain a clear space on all sides of the trampoline and trampoline enclosure.
3. Place the trampoline and trampoline enclosure on a level surface before use.
4. Use the trampoline and trampoline enclosure in a well-lighted area. Artificial illumination may be required for indoor or shady areas.
5. Secure the trampoline and trampoline enclosure against unauthorized and unsupervised use.
6. Remove any obstructions from beneath the trampoline and trampoline enclosure.
7. The trampoline enclosure is only to be used as an enclosure for a trampoline and the trampoline must be of the appropriate size as covered by the specific enclosure.
8. The owner and supervisors of the trampoline are responsible for making all users aware of practices specified in the use instructions.

**WARNING:**

1. DO NOT attempt or allow somersaults on the trampoline. Landing on the head or neck can cause serious injury, paralysis, or death even when landing in the middle of the bed.
2. Do not allow more than one person inside the trampoline enclosure. Use by more than one person at the same time can result in serious injuries.
3. Use trampoline enclosure only with mature, knowledge supervision. Care and Maintenance Instructions: Inspect the trampoline enclosure before each use and replace any worn, defective or missing parts. The following conditions could represent potential hazards:
  - a. Missing, improperly positioned, or insecurely attached barrier or enclosure support system (frame) padding and pole caps.
  - b. Punctures, frays, tears or holes worn in the barrier or support system (frame) padding.
  - c. Deterioration in the stitching or fabric of the barrier or support system (frame) padding.
  - d. Bent or broken support system (frame).
  - e. Sagging barrier.
  - f. Sharp protrusions on the support (frame) or suspension system.

**IMPORTANT**

Inspect the trampoline and enclosure before each use. Disassemble the trampoline and/or enclosure immediately if any unsafe condition exists.

Do not allow use of the trampoline or enclosure until the hazard has been corrected.

**WARNING****ANCHOR YOUR TRAMPOLINE & ENCLOSURE -**

If you live in an area with the potential for high winds or gusts of wind we advise that you anchor your trampoline and enclosure system firmly to the ground by the top rail of the trampoline. Your trampoline and enclosure could be carried off by a strong wind and cause damage to the unit itself or cause other property damage.

**After assembling and inspecting your trampoline and enclosure, and before permitting its use, ensure that the trampoline is on a firm, level surface and that every leg is in contact with and firmly supported by this surface. It is the responsibility of the owner and/or supervisor of this trampoline to ensure unit is correctly assembled, placed and maintained.**

Enjoy your trampoline!
